Prices on Holland bulbs have reached the lowest possible point. Consequently every florist is sure to be interested in these prices which are much lower on most varieties than last year and even lower than a few weeks ago. The Holland concerns who furnish our bulbs have co-operated splendidly in bringing these prices down to the lowest possible point. Already there is an upward tendency in prices and we have been advised by our growers that they cannot hold these low prices open on some items very long. Consequently, you can save money by placing your order immediately. Moreover you will make yourself doubly sure of securing any variety you want. Our list contains the most popular varieties but we can give you prices on hundreds of others.

Thousands of satisfied customers have found the quality of our stock unsurpassed. Our bulbs come only from reliable growers who know their sales to us depend on furnishing superior quality. One large old established concern has regularly supplied us with Holland bulbs for over half a century. In comparing our prices, do not get the impression that this is inferior quality because prices are low. We can sell on a lower margin than some others because our overhead expense is comparatively light and because our bulbs come in solid carload shipments; in fact, your bulbs if ordered from us will cost less in most cases than if you were to send your orders to Holland. Remember, these prices include packing, cases, all foreign and ocean freight, harbor transfer, duty and many other charges that Holland salesmen never mention.

As our prices in our August Wholesale Catalogue are sure to be higher, you have everything to gain and nothing to lose by placing your order at once so that it can be forwarded to our growers in ample time for shipment in due season. To customers of approved credit, terms are 2% 10 days, net 60 days from date of invoice. Satisfactory references required from all unknown correspondents or advance payment of 25% of amount of order.

We are in better position to quote prices on Narcissus this year than last. If you are in the market for large quantities, give us a list and let us quote you special prices. It will be necessary, however, to give this matter immediate attention because there is a very short supply of Narcissus of good quality.

Once more we urge that you send us your orders immediately and avoid the probability of higher prices later on. Better attend to this matter today. Save money and avoid disappointment.

We also include in this list new prices of some of the leading kinds of flower seeds for summer sowing. Your orders for these and other varieties as well as all kinds of vegetable seeds will receive our prompt and careful attention. Our stocks of Lettuce, Spinach, Turnip and other summer planting kinds are complete and of unsurpassed quality.

NARCISSUS

American Narcissus will become more popular every year. Florists have proven by a show of flowers this winter and spring that American Narcissus are a success. The man who gives up growing Narcissus because he cannot get imported stock, like the man who quits when any new situation brings new problems, is throwing away his chance of success. Since conditions vary widely, it is not strange that each florist must find out for himself what varieties best suit his local conditions. We advise that you spread your order over several varieties, to learn what best succeeds under your care. We have placed our contracts with growers from Holland whose long experience in their home land, together with their successful experiments for several years here in America give best assurance of well grown, mature, correctly cured bulbs which will give abundant satisfaction.

If not stated, ask for prices, mentioning quantity.

Paper White Grandiflorus

Paper Whites are indispensable to the high class progressive florist. Just as rapidly as this flower becomes acclimated and florists learn to adjust their cultural methods to meet the new requirements of this flower better and better results will be obtained. Some florists already secure apparently as successful results as with the best French stock. Experience proves that American Paper Whites can be grown successfully under glass and also give a high percentage of bloom when grown in pebbles and water. There will certainly be an increasing demand for this beautiful flower. You will undoubtedly need a good supply for your better trade this fall. Take our advice and order at once.

Now let's make this point clear. This last slash in prices is simply to move a surplus of these varieties and you are cautioned that they may be withdrawn any day. Consequently, if you want to take advantage of these low prices without sacrificing quality, give us your orders immediately. Remember that even if these prices are withdrawn, the prices in the circular attached will then be lower than most other seedsmen are quoting and lower than we can offer in our summer catalogue.

You have everything to gain and nothing to lose by sending us your order for just as large quantities as you can use by return mail. At these low prices, the sale of all kinds of Holland bulbs will increase enormously. Plan to get your share of the business. A Grape Fruit has been defined as a lemon which saw its opportunity and took it. When you can get bulbs at these low prices, it pays to be a Grape Fruit.

This special offer carries all the benefits and is subject to all of the conditions mentioned in the attached price list.

Anticipating your prompt response and good big orders, to our mutual advantage, we remain
